Dear Colleagues,

We are pleased to invite you to the **13th International Workshop on Neonatology** to be held in Cagliari, Italy. This follows the success of the previous editions which saw the overall presence of more than 8000 participants. Workshop 13 is an important milestone and is accompanied by recognition by many national and international scientific societies. Some of the world's most renowned specialists from about forty different nations have been present in Cagliari in these years. They have created a network of scientific and human relations that have changed, improved and enriched us all.

The title of the workshop "The power of epigenetics. Twins, identical but different" underscores this itinerary: a view towards the future of perinatology and pediatrics through debate and the contribution of the Workshop, but above all the trajectory that assistance, research and teaching will follow in the coming years, in an integrated way with the medicine of the adult. Moreover it is the natural evolution of the last year congress entitled "10P Pediatrics": Personalized, Perspective, Predictive, Preventive, Precise, Participatory, Patient-centric, Psycho-cognitive, Postgenomic, Public.

This year the proceedings of the Workshop will be published in the "Journal of Pediatric and Neonatal Individualized Medicine" (JPNIM), which is now also indexed in Scopus. In past years the journals were "Medical and Surgical Pediatrics", "Journal of Chemotherapy", "Journal of Maternal Fetal Neonatal Medicine", "Clinica Chimica Acta" and JPNIM.

Over the years, the Workshop has made its impression on science and has promoted a lively discussion in an always serene and extremely constructive atmosphere.

This year's meeting is organized requiring the patronage of the Italian Society of Neonatology (SIN), the Italian Society of Pediatrics (SIP), the Italian Society of Perinatal Medicine (SIMP), the European Association of Perinatal Medicine (EAPM), the Union of European Neonatal and Perinatal Societies (UENPS), the International Federation of Clinical Chemistry and Laboratory Medicine (IFCC) and the Union of Middle-Eastern and Mediterranean Pediatric Societies (UMEMPS).

Besides the traditional appointment of the International Workshop, there will be 6 satellite meetings, including the 7th International Conference on Neonatal and Pediatric Laboratory Medicine (including a session on twins, with the results of the ACTION FP7 Project – www.action-euproject.eu), the 4th International Course on Perinatal Pathology, the 12th edition of the "Terra di Sardegna" Meeting on Neonatological Nursing, the Sardinian Meeting of the Society of Neonatology, and a National Meeting on Pediatrics and Neonatology (including a session on Low Dose Medicine).

The meeting is dedicated to neonatologists, pediatricians, obstetricians, perinatologists, pathologists, laboratory researchers, pediatric cardiologists and all those who work with the newborns.

Great attention will be devoted to young specialists: in the last few years the events have been extended through presentation of numerous selected posters for each meeting and numerous prizes of 500 euros have been awarded for the best contributions (this year we have 5 prizes).

We look forward to welcoming you to this traditional appointment to discuss topics of the present and keep us up to date on the latest results, both in research and clinical neonatology and pediatrics.

The Presidents of the International Congresses:

Vassilios Fanos (Cagliari, Italy), Gabriel Dimitriou (Patras, Greece), Ola Saugstad (Oslo, Norway), Dorret Boomsma (Amsterdam, The Netherlands), Michele Mussap (Genoa, Italy), Raf Sciôt (Leuven, Belgium), Gavino Faa (Cagliari, Italy)

Cari Colleghi,

abbiamo il piacere di invitarvi al **13th International Workshop on Neonatology** che si terrà a Cagliari e fa seguito al successo delle precedenti edizioni, che hanno visto complessivamente la presenza di oltre 8000 partecipanti. Quello dei tredici anni è un traguardo importante, accompagnato nel corso degli anni dal riconoscimento di numerose Società Scientifiche Nazionali e Internazionali. Alcuni tra i migliori specialisti a livello mondiale, provenienti da una quarantina di nazioni, sono stati presenti a Cagliari in questi anni e hanno creato una rete di rapporti scientifici e umani che ci ha cambiato, migliorato e arricchito.

Il significato del titolo del convegno, "Il potere dell'epigenetica. Gemelli identici, ma diversi", rappresenta l'evoluzione naturale del convegno dell'anno scorso centrato sulla "Pediatrica delle 10 P": personalizzata, prospettica, predittiva, preventiva, precisa, partecipata, paziente-centrica, psico-cognitiva, postgenomica, pubblica.

Anche quest'anno gli Atti del Workshop saranno pubblicati sul "Journal of Pediatric and Neonatal Individualized Medicine (JPNIM)" che è stato indicizzato anche su SCOPUS. Negli anni precedenti, le riviste sono state "Medical and Surgical Pediatrics", "Journal of Chemotherapy", "Journal of Maternal Fetal Neonatal Medicine", "Clinica Chimica Acta" e JPNIM.

Nel corso degli anni il convegno ha lasciato una traccia scientifica che ha contribuito a una discussione vivace in un'atmosfera sempre serena ed estremamente costruttiva.

Per il meeting di quest'anno è richiesto il patrocinio di: Società Italiana di Neonatologia (SIN), Società Italiana di Pediatria (SIP), Società Italiana di Medicina Perinatale (SIMP), European Association of Perinatal Medicine (EAPM), Union of European Neonatal and Perinatal Societies (UENPS), International Federation of Clinical Chemistry and Laboratory Medicine (IFCC), Union of Middle-Eastern and Mediterranean Pediatric Societies (UMEMPS).

Oltre al tradizionale Workshop Neonatale, quest'anno ci sono 6 satellite meetings che includono la 7^a International Conference on Neonatal and Pediatric Laboratory Medicine (da segnalare una sessione dedicata tutta ai gemelli, con i risultati dell'ACTION FP7 Project – www.action-euproject.eu), il 4^o International Course on Perinatal Pathology, la 12^a edizione del Meeting infermieristico-neonatologico "Terra di Sardegna", il tradizionale Meeting della Società Italiana di Neonatologia-Sezione Sardegna, e un Convegno Nazionale di Pediatria e Neonatologia (con una sezione dedicata alla Low Dose Medicine).

Il convegno è dedicato a Neonatologi, Pediatri, Ostetrici, Perinatologi, Anato-patologi, Laboratoriisti, Cardiologi Pediatri, Infermieri e a tutti coloro che si interessano di neonati.

Grande attenzione è dedicata ai giovani: negli ultimi anni la discussione è stata ampliata dalla presentazione di numerosi poster selezionati per ogni convegno e sono stati distribuiti numerosi premi da 500 euro ciascuno per i migliori contributi (quest'anno saranno assegnati 5 premi).

Vi aspettiamo a questo tradizionale appuntamento per discutere argomenti di attualità e per aggiornarci sulla ricerca e sulle novità cliniche in neonatologia e pediatria.

**Deadline per la
presentazione
degli abstract:
10 agosto 2017.**

Abstracts can be **up until 3000 characters (including spaces)** in length + **1 figure or 1 table**.

Abstracts must be written in English and must be **original** (not published elsewhere in whole or in part).

Text

Please submit the text in a Word file.

Abstract length: **up until 3000 characters (including spaces)**.

All acronyms in the text should be expanded at first mention, followed by the abbreviation in parentheses.

Please use the following font: Times New Roman, 11 pt.

For paragraph formatting, please use single spacing and full justification.

Do not use boldface or underline character formatting; use italics just for technical terms or not English words. Use quotation marks just for quotations or to underline a particular word meaning.

Do not insert footnotes.

Please note that the **abstract needs to be structured, and to include the following sections:**

a) Introduction; b) Materials and methods; c) Results; d) Conclusions. **Case reports constitute an exception to this, and these should include the following sections:** a) Introduction; b) Case report; c) Conclusions.

Figures and tables

Authors can submit **1 figure or 1 table**.

Figures (graphs, charts, photographs, and illustrations) and tables should be submitted separately from the text file:

- ▶ **for graphs and charts**, use Excel files;
- ▶ **for photographs and illustrations**, use JPEG, PNG or TIFF files (or, at least, PowerPoint);
- ▶ **for tables**, use Excel or Word files.

Figures should be **high-resolution** (300 dpi).

Please only use the following **fonts** in figures: **Helvetica** or **Arial**.

Authors should quote figures and tables in the text and should number them in the order in which they appear in the text. Each figure and table should be accompanied by a **short description**.

Figures and tables must be **original**.

Please note that editors and the publisher could evaluate the overall quality of the files they receive.

They reserve the right to modify the number of figures and tables whenever this exceeds 1 figure or 1 table.

References

Authors can cite **up to 3 references**.

Please list the references **in order of citation** in the text, in **square brackets**.

For each entry, please clearly indicate the following data: names of **all the authors**, title of the article/book, publication year. Moreover, for journal articles, indicate journal title, volume, issue, first and last page of the article; for websites, indicate the last access; for books, indicate the book publisher and its head office. If you want to quote a chapter within a book, please add information on the chapter (title and authors). Examples:

- ▶ **article (see and follow Pub Med citations):** Mishra J, Dent C, Tarabishi R, Mitsnefes MM, Ma Q, Kelly C, Ruff SM, Zahedi K, Shao M, Bean J, Mori K, Barasch J, Devarajan P.
